### DETAILED ACTION

1. Applicant's preliminary amendment, filed 9/28/01, is acknowledged.  
Claims 1-24 and 29-49 have been cancelled.  
Claims 25 and 28 have been amended.  
Claims 50-96 have been added.  
*Claims 25-28 and 50-96 are pending.*

#### ***Restriction Requirement/Species Election***

3. The Examiner acknowledges that claims 25-28 and newly added claims 50-96 correspond to Group IV of parent application 09/266,464, now U.S. Pat No. 6,329,159.

4. Restriction to one of the following species is required under 35 U.S.C. § 121:

Applicant is required to elect a specific method of detecting or identifying an inhibitor of GPR-9-6 by electing a particular species of each of the following combined in the recited methods:

- a) a specific class of test agent, and
- b) a specific ligand or promoter of GPR-9-6.

These methods are distinct because they employ distinct ingredients in the method steps; therefore each method is patentably distinct.

Applicant is required under 35 USC 121 (1) to elect a single disclosed species to which the claims would be restricted if no generic claim is finally held to be allowable and (2) to list all claims readable thereon including those subsequently added.

Currently, claim 25 is generic.

5. Applicant is advised that a response to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 C.F.R. § 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. M.P.E.P. § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. § 103 of the other invention.

Art Unit: 1644

6. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jessica Roark whose telephone number is (703) 605-1209. The examiner can normally be reached Monday through Friday from 8:00 AM to 4:30 PM. A message may be left on the examiner's voice mail service.
